

EuroHPC Summit Week 2021 including PRACEdays21 Digital, from 22 March to 26 March 2021

PRACEdays21 Scientific Track Energy / Renewable Energy, Thursday 25 March 2021, 13:30 -16:00 (CET)

Speaker: Rafael Mayo-García, CIEMAT Spain

Title of the presentation: EERA transversal Joint Programme Digitalization for Energy

Abstract:

This talk will present this recently launched, which aims to foster cross-cutting activities focused on digitalization within EERA with a special emphasis on HPC, Data Science, and artificial intelligence.

Bio

Rafael Mayo-García (CIEMAT) is Senior Scientist at the Spanish Center for Energy Environment and Technology Research (CIEMAT) and Fellow at Harvard University-Institute of Applied Computational Science. He is the Head of the CIEMAT Scientific IT Unit, Principal Investigator of the Sci-Track group (<http://rdgroups.ciemat.es/web/sci-track/>), and EERA Digitalization for Energy Coordinator. His main lines of research are high performance computing and computational physics.
