

## IUCC HPC User Forum

As IUCC approaches its one-year anniversary as a member in PRACE, the Partnership for Advanced Computing in Europe, and in honor of the 2014 PRACE Winter School taking place in Israel, we are pleased to launch the IUCC HPC User Forum. Since IUCC joined PRACE in early 2013, we have witnessed increased use of these valuable resources among the local academic and research community. The HPC User Forum is an ideal way to make HPC more readily accessible to the local research and academic community, and illustrate the viability of this access model.

The researchers listed here have been awarded hours on PRACE or LinkSCEEM resources, and they have graciously agreed to publish their names and contact details so other researchers with questions can turn to them for advice, information concerning best practices or ways to take advantage of the opportunities offered by PRACE and LinkSCEEM.

IUCC thanks these researchers and hope others will soon join their ranks.

Prof. Benjamin Svetitsky	<a href="mailto:bqs@julian.tau.ac.il">bqs@julian.tau.ac.il</a>	Tel Aviv University
Prof. Alexander Gelfgat	<a href="mailto:gelfgat@tau.ac.il">gelfgat@tau.ac.il</a>	Tel Aviv University
Dr. Avi Cohen	<a href="mailto:cohen.avi8@gmail.com">cohen.avi8@gmail.com</a>	Bar Ilan University
