

Time	Day 4 (Thursday)	Day 5 (Friday)
9:00 – 9:30	Creation and destruction of objects (Brietzke)	Basic coarray features: declaration, communication, synchronization (Brietzke)
9:30 – 10:00		
10:00 – 10:30	Exercise Session 13	Exercise Session 18
10:30 – 11:00	Design Patterns (1): Returning to the Environment problem (Bader)	
11:00 – 11:30	Exercise Session 14	Collectives (Brietzke)
11:30 – 12:00		Dynamic Memory Management (Brietzke)
12:00 – 12:15	Lunch Break	Exercise Session 19
12:15 – 13:00		Lunch break
13:00 – 13:30	Design Patterns (2): An object oriented method for handling errors (Brietzke)	Exercise Session 19 cont'd
13:30 – 14:00	Exercise Session 15	Advanced synchronization Including events and locks (Bader)
14:00 – 14:30		
14:30 – 15:00	Design Patterns (3): Object interactions via the Observer Pattern (Bader)	Exercise Session 20
15:00 – 15:30		
15:30 – 16:00	Exercise Session 16	Some comments on parallel library design. Outlook to future features (Bader)
16:00 – 16:30		
16:30 – 17:00	PGAS introduction and overview (Brietzke)	Exercise Session 21
17:00 – 17:30		
17:30 – 18:00	Exercise Session 17
