

Brendan McGinty is the Industry Director for the National Center for Supercomputing Applications (NCSA) at the University of Illinois at Urbana-Champaign (UIUC), where he leads the world's largest industrial high-performance computing (HPC) program. His teams provide solutions to grand corporate and government challenges in the areas of modeling and simulation, bioinformatics, data analytics, visualization, and cybersecurity for many large companies. Brendan was a longtime corporate consultant and is a UIUC alumnus.
