

HPC Ecosystem Summit

Place: EuroHPC Summit Week, Poznan Poland

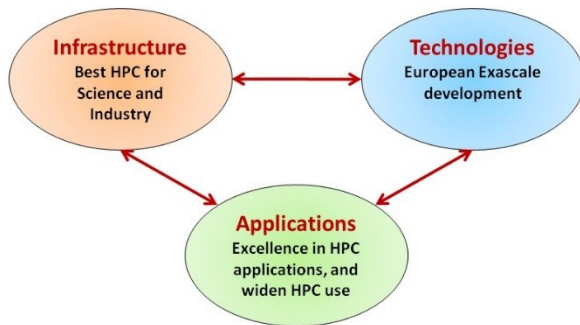

IBB Andersia Hotel; Room A

Date: 14 May 2019

Time: 14:30 – 17:00 CEST

The European Commission recognised the need for an EU-level policy in HPC to optimise national and European investments, addressing the entire HPC ecosystem and adopted its HPC Strategy on 15 February 2012 and published the communication 'High Performance Computing: Europe's place in a Global Race ' [COM(2012) 45 final]. Since then the European Commission increased the investment in HPC significantly and supported the three HPC pillars: Technology, Infrastructure and Applications with various projects and initiatives.

Recently the EuroHPC Joint Undertaking was founded. EuroHPC will permit the EU and participating countries to coordinate their efforts and share resources with the objective of deploying in Europe a world-class supercomputing infrastructure and a competitive innovation ecosystem in supercomputing technologies, applications and skills.

Aim of this HPC summit is to create a coherent HPC landscape including access to HPC resources, services for users and research. This summit will help to clarify the future roles of each actor in the field.

Programme:

14:30 Welcome (EC/PRACE) – Setting the scene

14:40 HPC Ecosystem

14:50 Results from the Survey

15:00 Panel Discussion

- Participants: all involved stakeholders
- Topics: **Training, Support, Services, Research, Technology, Policy**
- Questions: Where are overlapping tasks? Where is potential for cooperation?

16:30 Conclusion

16:50 Next Steps

17:00 End of Meeting
