

Dr Chris Johnson, Project Manager, EPCC, The University of Edinburgh

Chris Johnson is a Project Manager at EPCC, the University of Edinburgh, and is the coordinator of SHAPE (SME HPC Adoption Programme in Europe), a pan-European programme that promotes High Performance Computing adoption by SMEs (small to medium sized enterprises), supported as part of the PRACE initiative. Chris graduated in 1997 with a BSc (Hons) in Mathematics and Physics from the University of Nottingham and has since completed an MSc in Computing and a PhD in Theoretical Physics from the Universities of Manchester and Liverpool, the latter specialising on numerical methods using HPC. Since joining EPCC, Chris has worked on all of the National UK Supercomputing Services run by EPCC in a number of roles and has co-ordinated several funding calls both within the UK and across Europe where he is the co-ordinator of the Tier-1 resource exchange programme, DECI. Chris also teaches Numerical Algorithms for HPC to EPCC's MSc students.
